DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the *Rabi* Crops of Bengal for 1922-23.

[NOTE.—On an average of the five years ending 1920-21, the area under summer rice in Bengal has represented some 0·5 per cent of the total area under rice in British India.]

Character of the Season.—At the outset the weather was generally favourable for the preparatory tillage, and the sowings were done at the usual time. Since then continued absence of rain and the consequent insufficiency of soil moisture interfered with the growth of the crops and thus reduced the outturn in many districts. The rainfall in the middle of February caused damage in some West Bengal districts, but proved generally favourable to late-sown crops, especially summer paddy. The season, on the whole, has been unfavourable for the early crops and fairly favourable for the late ones.

Acreage.—The normal area under the different *rabi* crops in the province dealt with in this forecast is estimated at 2,998,200 acres. The area actually sown this year is reported to be 2,787,200 acres against 2,686,500 acres (revised) last year. Of this the area under summer (*boro*) rice is returned at 403,200 acres against 374,800 acres of the last year.

Outturn.—According to the estimates of district officers, the outturn of the different *rabi* crops for the province as a whole works out to 79 per cent. of the normal against 77 per cent. of last year, the returns from the more important *rabi* districts being as follows :—Nadia 56, Murshidabad 65, Jessore 53, Khulna 100, Burdwan 77, Midnapore 75, Rajshahi 66, Jalpaiguri 95, Darjeeling 102, Rangpur 100, Pabna 67, Malda 79, Dacca 84, Mymensingh 65, Faridpur 79, Bakarganj 103, Tippera 76, and Noakhali 100.

Summer rice crop.—The outturn of summer rice according to district estimates is 80 per cent. of the normal against 77 per cent. last year. The gross yield of the crop for the province, on the basis of a normal yield of 14 maunds of clean grain per acre, is thus estimated at 165,900 tons this year against 152,000 tons last year, or an increase of about 9 per cent.

HOOGHLY.	Barley	1,800	1,200	1,200	50	67	Middle of October; normal.	End of January; normal.	The increase in area under fruits and vegetables is due partly to revision of estimates and partly to expectation of a better price. The decrease under food crops is due to corresponding increase under fruits and vegetables. The weather was favourable at the beginning but unfavourable afterwards on account of heavy rain which has caused considerable damage to the crops.

The financial position was much deteriorated from 1920-21 owing to exceptional circumstances. Two important and essential projects such as (1) the extension of the trenching Grounds and (2) establishment of a Muhammadan Burial Ground had to be undertaken. The lands were required for these purposes, and the cost of acquisition of land amounting to Rs. 3,569-0-3 had to be paid during that year. Contributions from Government Grants placed at the disposal of the Divisional Commissioner and the Collector of the district for local works of improvement were expected to be received to cover projects, as assurance was given by the District Authorities. Accordingly Rs. 1,500 was allotted in the Budget of that year as Government contribution, which met the approval of the authorities. But nothing was received. The Municipality was therefore put to great financial difficulty. As it appears from the Budget of 1921-22 a sum of Rs. 1,386 was allotted for ordinary expenditure but the actual expenditure was Rs. 1,518 which was not an ordinary expenditure but of special circumstances it may not be taken into account. In finding out the normal average surplus of these three years. If this sum of Rs. 132 be deducted from the ordinary expenditure then the normal average surplus comes up to Rs. 291-6-0. Again this average surplus should not be taken into consideration as the financial condition of the Municipality has been greatly changed by the revision of assessment of 1923 which has come into force from the beginning of the year 1923-24, by the substantial rise of the rate of taxation of the personal tax from a Re. 1 to Rs. 1-3-0 per cent.

The normal surplus which may be expected in future, i.e., the difference between the average ordinary income and the average ordinary expenditure calculated on the figures in columns 13 to 15 and 17 to 19, respectively.

In addition to the details required on the reverse, clear information be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken or has agreed to take in order to make good deficiency.	The general revision of assessment of both the personal tax and latrine rate was made which has come into force from the beginning of the current year (1922-23). At this revision the rate of personal tax has been enhanced from Re. 1 to Rs. 1-2-0 per cent. And net increase of income only from these taxes and rates after the decision of the Review Committee has arrived at Rs. 4,049.
(*b*) The reserve of taxation or other possible means of increase in the revenue of the municipality.	Ditto, and the income has also been increased on the revision of scale of fees on the offensive and dangerous trades under section 26 of the Bengal Municipal Act.
(*c*) A statement of all outstanding loans, specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.	There is no other loan of the municipality.
(*d*) Any explanation in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.	The income of the municipality having been greatly increased by the enhancement of the rate of taxation as stated against (*a*) and (*b*) above the financial position has now become highly satisfactory. And the ordinary surplus shewn in the reverse which was also due to exceptional circumstances as stated in the remark column No. 21 cannot be taken into consideration in determining the present financial position of the municipality as it has already lost its effect after the revision of assessment.

Viceroy and Governor General.

The 29th March, 1923.

WHEREAS I, Rufus Daniel, Earl of Reading, am of opinion that a state of emergency exists which justifies a direction by me that the Act to fix the duty on salt manufactured in, or imported by land into, certain parts of British India to vary the duty leviable on certain articles under the Indian Tariff Act, 1894, to fix maximum rates of postage under the Indian Post Office Act, 1898, to amend the Indian Paper Currency Act, 1923, and to fix rates of income-tax, being an Act made by me under the provisions of section 67B of the Government of India Act, shall come into operation forthwith.

Now THEREFORE, in exercise of the power conferred by the proviso to sub-section (*2*) of that section, I do hereby direct accordingly.

ACCOUNTS AND FINANCE.
ESTIMATES AND ACCOUNTS.

No. 562-F.—The following statement is published for general information :—

A statement by His Excellency the Governor General of the reasons which moved him to pass an order under section 67B of the Government of India Act for certification of the Indian Finance Bill as originally introduced in the Legislative Assembly, providing for an increase in the existing salt duty for one year, (*i.e.*) till the 31st March 1924, to a rate of Rs. 2-8 a maund.

E. M. COOK,
Secretary to the Government of India.

STATEMENT.

In the course of the debates on the Finance Bill I was deeply concerned to find that I and my Government were in disagreement with the majority of the Legislative Assembly in regard to the necessity of imposing an increase in the salt tax from Re. 1-4 to Rs. 2-8 per maund in order to balance the budget and produce financial equilibrium. The Bill as introduced with this provision was not passed by the Legislative Assembly in the form proposed by my Government. It was recommended by me, in the original form proposed to the Council of State where it was passed by a majority of 18 votes. It was returned to the Legislative Assembly in the form recommended to the Council of State and rejected by a majority of 11 votes. I have a high respect for the convictions of the Legislative Assembly, but after careful consideration I find I cannot subscribe to them ; and I have decided to exercise the special powers with which I have been invested by His Majesty's Government under the provisions of section 57B of the Government of India Act and to certify the Bill. I have arrived at this decision after much anxious thought and deliberation and I desire to make clear my reasons for taking this action.

Ever since I came to India and learnt the financial conditions I have been deeply impressed by the imperative necessity of placing India's finances on a sound basis and have kept this object continually in view. The first budget after my arrival was that of 1922-23. I then learnt that there had been cumulative deficits in the four preceding years totalling 90 crores. Heavy increases of taxation had been imposed by my predecessor's Government in 1921-22 in order to balance the budget. Taxation had again to be enhanced by my Government in 1922-23 and an increase was also made in the postal and railway charges. It will be remembered that at that time my Government also proposed to double the salt duty. The Legislative Assembly rejected this proposal ; I accepted their decision and did not certify the necessary legislation for the purpose. Without dwelling in detail on my reasons it will suffice to mention (*a*) that my Government were deeply impressed with the need urged by the Legislature for retrenchment in both military and civil expenditure as a necessary step to precede any further taxation of this nature ; (*b*) that food prices were then high and wheat in particular exceptionally high. When we came to frame the budget of the present year we found that notwithstanding the admirable work accomplished by Lord Inchcape and his Committee, and after making very far-reaching reductions in expenditure, we had again to face a deficit not so large indeed as last year, but nevertheless amounting to nearly four crores. We have striven our utmost to restore equilibrium by scrutiny of estimates of revenue and expenditure but have failed. Speaking with all the responsibility falling on me and my Government I am convinced that the position cannot be ameliorated by any addition however tempting in appearance to revenue or by any deduction from expenditure.

My Government held that in view of the past accumulated deficits it was essential in the interests of India to balance its budget. It had every reason to look for the support of the public and the Legislature in this view. Ever since my arrival in this country the Legislature, all sections of the press and public men in deputations, addresses, and speeches have insistently urged on me the vital necessity of securing financial equilibrium. In addition representations had persistently been made that the Government of India should balance its budget in order that it might begin to remit the contributions of 9½ crores from the provincial Governments to the Government of India, a matter vitally important to the progress of those departments which have, under the Reforms Scheme, been committed to the charge of Ministers.

The rehabilitation of India's credit by presenting a balanced budget was not a measure which could be delayed. The need for large capital funds for material development obliges the Indian Government to enter the money market for considerable sums both in England and India ; it would be in the highest degree unfortunate if it had been obliged to present a deficit for the sixth year in succession, and when the circumstances

no longer permitted a hope that the deficit was purely temporary or was one which would yield to a determined effort at retrenchment. Reductions have been made in military charges which seemed incredible a year ago. The Government of India have stated that in making these reductions we are taking military risks, but we feel that we are justified by the financial stringency. His Majesty's Government have agreed in principle to the reductions. In the civil departments similar retrenchments of a far-reaching character have been accepted. If after making these efforts we still had to present a deficit, there was every possibility that the fact would react on our position as a borrower. Our hopes for a gradual reduction in our interest charges would be frustrated with results damaging not only to India's progress as a country, but to every industrial and trading interest in the land. The provinces have now their own commitments for capital expenditure on their material development. Their interests would suffer even more severely than those of the Central Government in proportion as their resources are more limited.

The most careful and anxious consideration was given to the possibility of finding an alternative to the salt tax as a means of raising the additional revenue necessary to attain equilibrium. No alternative presented itself to Government nor indeed, when the matter came to be discussed, to the Legislature. The reason is obvious. Those engaged in trade and industry have had laid upon them heavy increases in taxation during recent years. Postal and railway rates have been enhanced. The burden thus placed on commerce and industry will require time for adjustment, and further taxation in these directions would have failed to provide the sum required. I have myself given most careful consideration to the objections which appear to exist against the enhancement of the salt tax whether on economic grounds or those of sentiment. The tax is said to have historic unpopularity; but it existed before British rule. In the period from 1861-1877 it stood in Northern India at Rs. 3. In 1878 the rate was Rs. 2-12. From 1879-1881 and again from 1888-1902 it stood at Rs. 2-8-0 and since 1916 it has been at Re. 1-4-0. The objection is thus not to the tax itself but to its present enhancement. Every increase in the rate of a tax is unpopular; yet it must be remembered that it has been collected in the ordinary way at the enhanced rate throughout British India since the 1st of March of this year. The economic arguments against the tax appear to stand on shadowy foundations. Perhaps never in the recent history of India has there been a year in which such enhancement will press more lightly on the poor. Wages are still on a favourable basis; but prices of food-stuffs have markedly fallen and with the abundant promise of a rich harvest around us may be expected to decrease still further. Even a slight fall in the price of food-stuffs is of great importance to the poor family. The mill labourer is shown to spend approximately 56 per cent. of his income on food and of this amount salt represents only two-fifths of 1 per cent. The increase in salt tax must have an infinitesimal effect at a period such as this; prices of food grains fell by 20 per cent. between October 1921 and December 1922; between January 1922 and 1923 retail prices of wheat fell by 100 per cent. in important centres of Northern India.

These considerations were duly laid before the Legislative Assembly. That body had from the first admitted in principle the paramount necessity of balancing the budget. Many of the members had emphasised the need of regaining equilibrium as a necessary preliminary to fulfilling our obligations in regard to the gradual reduction of provincial contributions; and it is indeed obvious that no step in this direction can be taken so long as the finances of the Central Government are in deficit. The Assembly was unable to agree on the adoption of any alternative form of taxation which would secure the full amount required. Nevertheless, it rejected the proposal for an enhancement of the salt tax. It was in these circumstances that it became my duty to certify the measure. It must be clearly understood that my action merely imposes an enhancement of the tax until March 31st, 1924, when the matter must again come before the Legislature. It will then have had a year's experience of the operation of the tax, and it will be in a position to determine whether, in view of the condition of the country and having regard to our obligations to the provinces, it will vote for its retention.

I hold strict views regarding the exercise of my special powers; their use can only be justified, in the words of the Government of India Act, when it is essential for the interests of British India. This requirement has throughout been present to my mind. In the present case the interests of India only and no other interests are in question. A balanced budget is absolutely essential to her interests at the present time, and I believe that it is my duty to take the necessary action to secure this in the discharge of the responsibility placed upon me as Governor General by the Imperial Parliament.

It may be that the scheme of reforms introduced by the Government of India Act will be attacked on account of the action taken by me. This would be unfortunate and could only be due to misapprehension; for the constitution is embodied in the Act, and I do not believe that there is any substantial difference as regards the meaning of the important provisions under which I am acting. Unbalanced budgets appear to me to involve dangers to the future of India perhaps inherently greater than any constitutional or political issue, while their immediate effect is to stifle the development in the provision of all those beneficent activities, *e.g.*, Education, Public Health, Industry, which should be the first fruits of the reforms. I am convinced therefore that my action will prove of ultimate benefit in the development of the reforms and the advancement of India and for these I shall continue to labour in the discharge of the high responsibilities entrusted to me as Governor General.

16. Whenever the report of the Government Inspector points to the necessity for or suggests a change in any of the rules or in the system of working, the Agent or Manage shall, when acknowledging the report, intimate the action which has been taken, or which it is proposed to take, to prevent a recurrence of similar accidents, or shall inform the Government Inspector of his intention to report further on the Government Inspector's proposals.

17. (1) Whenever an accident, such as is described in section 83 of the Indian Rail ways Act, 1890, has occurred in the course of working a railway, the Agent or Manager (IX of 1890. shall cause an enquiry to be promptly made by a committee of railway officers (to be called a "joint enquiry") for the thorough investigation of the causes which led to the accident:

Provided that such enquiry may be dispensed with—

(*a*) if an enquiry is to be held by the Government Inspector under rule 6;

(*b*) if the accident has not been attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or

(*c*) if there is no reasonable doubt as to the cause of the accident; or

(*d*) if one department of the railway intimates that it accepts all responsibility in the matter.

(2) Where such enquiry is dispensed with, it shall be the duty of the head of the department of the railway responsible for the accident to make such enquiry (to be called a "departmental enquiry" as he may consider necessary, and if his staff or the system of working is at fault, to adopt or suggest such measures as he may consider expedient for preventing a recurrence of similar accidents.

18. (1) Whenever a joint enquiry is to be made, the Agent or Manager shall cause notice of the date and hour at which the enquiry will commence to be given to the following officers, namely:—

(*a*) the District Magistrate of the district in which the accident occurred, or such other officer as the Local Government may appoint in this behalf, the Superintendent of Railway Police and the District Superintendent of Police;

(*b*) the Government Inspector appointed under sub-section (1) of section 4 of the Indian Railways Act, 1890, for the section of the railway on which the (IX of 1890.) accident occurred; and

(2) The date and hour at which the enquiry will commence shall be fixed, so as to give the officers mentioned in sub-rule (*1*) sufficient time to reach the place where the enquiry is to be held.

19. (1) As soon as any joint or departmental enquiry has been completed the President of the Committee or the head of the department, as the case may be, shall send to the Agent or Manager a report which in the case of all accidents of the nature described in the explanation to rule 5 must be submitted in the form prescribed by sub-rule (1) of rule 8.

(2) The Agent or Manager shall forward, with his remarks, as to the action it is intended to take in regard to the staff responsible for the accident, or for the revision of the rules or the system of working, a copy of such report—

(*c*) if any judicial enquiry is being made, to the Magistrate making such enquiry.

(3) Such copies shall be accompanied in the case referred to in clause (*b*) of sub-rule (2), by a statement of the persons, if any, whom the Agent or Manager desires to prosecute, and in the case referred to in clause (*c*) of the same sub-rule, by a copy of the evidence taken at the enquiry.

Duties of Magistrates.

20. Whenever an accident, such as is described in section 83 of the Indian Railways Act, 1890, has occurred in the course of working a railway, the District Magistrate, or any other Magistrate who may be appointed in this behalf by the Local Government, may either— (IX of 1890.)

(*a*) himself make an enquiry into the causes which led to the accident ; or

(*b*) depute a subordinate Magistrate, who, if possible, should be a Magistrate of the first class, to make such an enquiry ; or

(*c*) direct an investigation into the causes which led to the accident to be made by the police.

21. Whenever it is decided to make an enquiry under clause (*a*) or clause (*b*) of rule 20, the District Magistrate or other Magistrate appointed as aforesaid or the Magistrate deputed under clause (*b*) of rule 20, as the case may be, shall proceed to the scene of the accident and conduct the enquiry there, and shall at once advise the Agent or Manager of the railway and the Government Inspector by telegraph of the date and hour at which the enquiry will commence, so as to enable the railway administration to summon the requisite expert evidence.

22. A Magistrate making an enquiry under rule 20 may summon any railway servant, and any other person whose presence he may think necessary, and, after taking the evidence and completing the enquiry, shall, if he considers there are sufficient grounds for a judicial enquiry, take the requisite steps for bringing to trial any person whom he may consider to be criminally liable for the accident. Whenever technical points are involved, the Magistrate should call for the opinion of the Government Inspector or other professional persons.

23. The result of every enquiry or investigation made under rule 20 shall be communicated by the Magistrate to the Agent or Manager of the railway and to the Government Inspector.

24. If in the course of any judicial enquiry into an accident occurring in the course of working a railway, the Magistrate desires the assistance of the Government Inspector or of the Agent or Manager of the railway, or the attendance of any officer of the railway, to explain any matter relating to railway supervision, management or working, he will issue a requisition to the Agent or Manager for the attendance at court of an officer competent to explain such matter, stating at the same time the nature of the assistance required. In summoning railway servants, the Magistrate will take care not to summon so large a number of the employees, specially of one class, on the same day, as to cause inconvenience to the working of the railway. In the case of very serious accidents it will generally be advisable for the Magistrate to obtain a report from both the Government Inspector and the Agent or Manager of the railway in regard to the accident before finally concluding the judicial enquiry.

25. On the conclusion of any such judicial enquiry the Magistrate shall send a copy of his decision to the Agent or Manager of the railway, and to the Government Inspector, and shall, unless in any case he thinks it unnecessary to do so, report the result of the enquiry to the Local Government.

Duties of Police Officers.

26. (1) The railway police may make an investigation into the causes which led to any accident occurring in the course of working a railway and shall do so—

(*a*) whenever any such accident is attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or has *primâ facie* been due to any criminal act or omission ; or

(*b*) whenever the District Magistrate or the Magistrate appointed under rule 20 has given a direction under clause (*c*) of that rule :

Provided that no such investigation shall be made when an enquiry has been commenced or ordered under clause (*a*) or clause (*b*) of rule 20.

(2) The railway police shall report, with as little delay as possible, to the nearest Station-master or, where there is no Station-master, to the railway servant in charge of the section of the railway on which the accident has occurred, every accident, which may come to their notice occurring in the course of working a railway attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property or which has *prima facie* been due to any criminal act or omission.

27. (1) Whenever an investigation is to be made by the railway police—

(*a*) in a case in which an accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code or with serious injury to property ; or

(*b*) in pursuance of a direction given under clause (*c*) of rule 20,

the investigation shall be conducted by the officer-in-charge of the railway police, or, if that officer should be unable to conduct the investigation himself, then by an officer to be deputed by him.

(2) The officer deputed under sub-rule (1) shall ordinarily be the senior officer available, and shall whenever possible be a gazetted officer, and shall in no case be of rank lower than that of Inspector :

Provided that if the accident has not been attended with loss of life or grievous hurt and if there is no suspicion of any neglect of rules on the part of any servant of the railway the investigation may be carried out by an officer-in-charge of a police-station.

28. The officer who is to conduct an investigation in pursuance of rule 27 shall proceed without delay to the scene of the accident and conduct the investigation there, and shall at once advise the Agent or Manager of the railway and the traffic officer of the district by telegraph of the date and hour at which the investigation will commence so that, if possible, the presence of a railway official may be arranged for to watch the proceedings and to aid the officer making the investigation. The absence of a railway official must not, however, be allowed to delay the investigation, which should be made as soon as possible after the accident has taken place.

29. (1) In every case to which rule 27 applies, immediate information shall be given by the railway police to the district police, who, if so required, shall afford all necessary assistance, and shall, if occasion arise, carry the investigation beyond the limits of the railway premises. But the railway police are primarily entrusted with the duty of carrying on the investigation within such limits.

(2) Subject to any provisions elsewhere contained in these rules, the further prosecution of the case, on the conclusion of the police investigation, shall rest with the railway police.

30. The result of every police investigation shall be reported at once to the District Magistrate or other officer appointed in this behalf by the Local Government to the Agent or Manager of the railway or other officer appointed by him, and to the Government Inspector.

31. Where there are no railway police, the duties imposed by rules 26, 27 and 28, sub-rule (2) of rule 29, and rule 30 on the railway police, or on the officer-in-charge of the railway police, shall be discharged by the district police or by the District Superintendent of Police, as the case may be.

II of 1902

Houses not to be appropriated in certain cases.

10. No notice shall be issued under section 7 if the house—

(*a*) was, at the date of the issue of the notification declaring this Act or the Cantonments (House-Accommodation) Act, 1902, as the case may be, to be operative in the cantonment or part of the cantonment, or is, with such sanction as is required by section 9, occupied as a hospital, school, school hostel, bank, hotel or shop, and has been so occupied continuously during the three years immediately preceding the time when the occasion for issuing the notice arises or II of 1902

(*b*) was, at the date of such a notification as is referred to in clause (*a*), or is, with such sanction as aforesaid, occupied by a railway administration or by a company or firm engaged in trade or business or by a club, or

(*c*) is occupied by the owner, or

PART 4.—DEFINITIONS.

For the purposes of the present Treaty, the following expressions are to be understood in the sense defined in this Part.

Capital Ship.

A capital ship, in the case of ships hereafter built, is defined as a vessel of war, not an aircraft carrier, whose displacement exceeds 10,000 tons (10,160 metric tons) standard displacement, or which carries a gun with a calibre exceeding 8 inches (203 millimetres).

Aircraft Carrier.

An aircraft carrier is defined as a vessel of war with a displacement in excess of 10,000 tons (10,160 metric tons) standard displacement designed for the specific and exclusive purpose of carrying aircraft. It must be so constructed that aircraft can be launched therefrom and landed thereon, and not designed and constructed for carrying a more powerful armament than that allowed to it under Article IX or Article X, as the case may be.

Standard Displacement.

The standard displacement of a ship is the displacement of the ship complete, fully manned, engined, and equipped ready for sea, including all armament and ammunition, equipment, outfit, provisions and fresh water for crew, miscellaneous stores and implements of every description that are intended to be carried in war, but without fuel or reserve feed water on board.

The word "ton" in the present Treaty, except in the expression "metric tons," shall be understood to mean the ton of 2,240 pounds (1,016 kilo).

Vessels now completed shall retain their present ratings of displacement tonnage in accordance with their national system of measurement. However, a Power expressing displacement in metric tons shall be considered for the application of the present Treaty as owning only the equivalent displacement in tons of 2,240 pounds.

A vessel completed hereafter shall be rated at its displacement tonnage when in the standard condition defined herein.

XX of 1856

(*2*) The Local Government may order that a cantonment to which the provisions of the Bengal Chaukidari Act, 1856, have been extended shall be divided into any number of cantonment divisions and may determine the nature of the tax to be levied in each such division according to section 10 of that Act. XX of 1856

Provided that, where the annual value of any building is, by reason of exceptional circumstances, in the opinion of the Cantonment Authority, excessive if calculated in the aforesaid manner, the Cantonment Authority may fix the annual value at any less amount which appears to it to be just.

Incidence of taxation.

65. (*1*) Save as otherwise expressly provided in the notification imposing the tax, every tax on the annual value of buildings or lands or of both shall be leviable primarily upon the actual occupier of the property upon which the said tax is assessed, if he is the owner of the buildings or lands or holds them on a building or other lease from the Secretary of State in Council or from the Cantonment Authority or on a building lease from any person.

(*4*) An occupier who makes any payment for which he is not primarily liable under this section shall, in the absence of any contract to the contrary, be entitled to be re-imbursed by the person primarily liable for the payment.

(*2*) Any objection to a valuation or assessment shall be made in writing to the Cantonment Authority before the date fixed in the notice, and shall state in what respect the valuation or assessment is disputed, and all objections so made shall be recorded in a register to be kept for the purpose by the Cantonment Authority.

(*3*) The objections shall be inquired into and investigated, and the person making them shall be allowed an opportunity of being heard either in person or by authorized agent, by an Assessment Committee appointed by the Cantonment Authority.

(*2*) The assessment list so authenticated shall be deposited in the office of the Cantonment Authority and shall there be open, free of charge, during office hours to all owners, lessees and occupiers of property comprised therein or the authorised agents of such persons, and a public notice that it is so open shall forthwith be published.

Evidential value of assessment list.

70. Subject to such alterations as may thereafter be made in the assessment list under the provisions of this Chapter and to the result of any appeal made thereunder, the entries in the assessment list authenticated and deposited as provided in section 69 shall be accepted as conclusive evidence—

(*i*) for the purpose of assessing any tax imposed under this Act, of the annual value or other valuation of all buildings and lands to which such entries respectively refer, and

When any tenement, the annual value of which has been thus separately recorded, has remained vacant and unproductive of rent for ninety or more consecutive days during any year, such portion of the tax in respect of that year on the whole building shall be remitted or refunded as would have been remitted or refunded if the tenement had been separately assessed :

STATEMENT OF OBJECTS AND REASONS.

A Committee, which was appointed by the Government of India in January 1921 to consider what changes were necessary in order to introduce into the administration of cantonments the spirit of the reformed scheme of Government, recommended a complete revision and amalgamation of the Cantonments Act (Act XV of 1910) and the Cantonment Code, 1912, in order to bring into conformity with ordinary municipal law the system under which military cantonments are administered.

The recommendations of the Committee have now been examined by the Government of India and the conclusions arrived at are embodied in the Bill.

The main features of the Bill are as follows :-

(*a*) It is proposed to take power to municipalize the government of those cantonments which contain a substantial civil population having no essential connexion with or dependence upon the military administration. In other cantonments where these circumstances do not fully exist the administration of cantonment affairs will be vested in the hands of the Commanding Officer of the Cantonment, who, for the purposes of the Act, will be constituted a corporation sole. The general effect will be that the Cantonment Authority will cease to be the purely executive agency of Government, which it is at present. In the larger cantonments the existing Cantonment Committee will be replaced by a Cantonment Board which will be municipal in character and an essentially local self-government body.

(*b*) The reformed Cantonment Authorities will have a separate legal persona, will be capable of suing and being sued in their own name and of making contracts. They will also be empowered to make bye-laws to govern local matters of administration which require different treatment in different cantonments.

(*c*) The cantonment fund under the reformed system will be a local fund vested in the Cantonment Authority.

(*d*) In the reformed cantonments where a Board is constituted a proportion of the Cantonment Board will be elected representatives of the civil inhabitants of the cantonment. An official majority will, however, be maintained.

(*e*) The Cantonment Magistrate, as such, will be eliminated. In his place an "Executive Officer" will be appointed. He will be paid by Government. He will perform, amongst other things, the duties of Secretary of the Board, and he will have no judicial powers or functions.

(*f*) The Local Governments will exercise certain larger powers of superintendence and control over cantonment affairs than they do at present.

(*g*) The military authorities will retain certain special powers in matters affecting the health, welfare and discipline of troops.

APPENDIX.

COMPULSORY MATHEMATICS.

The course is as follows:—

(1) *Arithmetic.*—The whole of Arithmetic. (The use of Algebraical symbols and processes will be permitted.)

(2) *Algebra.*—The four simple rules, Fractions, Greatest Common Measure, Least Common Multiple, Factors, Remainder Theorem, Proportion, Simple Equations of one or more unknown quantities with easy problems, Quadratic Equations, with easy problems and theory of Quadratic Equations, Graphs and their applications.

[Candidates should be provided with squared paper]

(3) *Geometry.*—Practical and Theoretical Geometry.

The questions on Practical Geometry will be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. All figures should be drawn accurately, for which purpose every candidate should provide himself with a graduated scale, a pair of set squares, a protector, a compass and a hard pencil.

The questions on Theoretical Geometry will consist of Theorems contained in the annexed Schedule B, together with easy extensions and deductions with numerical illustrations. Any proof of a proposition will be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the Theorems are stated in Schedule B is not imposed as the sequence of their treatment. In the proof of the Theorems hypothetical constructions will be permitted.

[Candidates will be provided with squared paper.]

SCHEDULE A.

Bisections of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportions.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

SCHEDULE B.

Angles at a point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if—

(*i*) a pair of alternate angles are equal, or
(*ii*) a pair of corresponding angles are equal, or
(*iii*) a pair of interior angles on the same side of the cutting line are together equal to two right angles.

then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilineal figures.

The sum of the angles of a triangle is equal to two right angles.

If the side of a convex polygon are produced in order the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following Algebraical identities:—

$$k(a+b+c+..)=ka+kb+kc+....$$
$$(a+b)^2=a^2+2ab+b^2.$$
$$(a-b)^2=a^2-2ab+b^2.$$
$$a^2-b^2=(a+b)(a-b).$$

The square on a side of a triangle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right or acute. The difference in the case of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not the diameter is at right angles to the chord; conversely the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle), (*i*) if two arcs subtend equal angles at the centres, they are equal; (*ii*) conversely, if two arcs are equal they subtend equal angles at the centres.

In equal circles (or in the same circle), (*i*) if two chords are equal, they cut off equal arcs; (*ii*) conversely, if two arcs are equal the chords of the arcs are equal.

Equal chords in a circle are equidistant from the centre; and the converse.

The tangents at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle, the angle in a segment greater than a semi-circle is less than a right angle, and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary, and the converse.

If a straight line touch a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Proportion: Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these angles proportional, the triangles are similar.

In any right-angle triangle the perpendicular to the hypotenuse from opposite vertex divides the triangle into two triangles which are similar to the whole triangle and to each other.

The internal bisector of an angle of a triangle divides the opposite sides internally in the ratio of the sides containing the angle and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 996L., dated the 14th April, 1923.—The following Report of the Select Committee on the Calcutta Port (Amendment) Bill, 1923 (with the Bill, as amended by the Committee), is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE CALCUTTA PORT (AMENDMENT) BILL, 1923.

We, the undersigned members of the Select Committee, to which the Bill further to amend the Calcutta Port Act, 1890, was referred, have considered the Bill, and have the honour to submit this, our report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

2. The more important changes are as follows :—

Clause 1.—The usual drafting amendment has been made in clause 1.

Clause 2 (new section 24B, sub-section (2)).—This proposed sub-section as drafted appears to us to be unduly restricted. As in the case of the Bombay Port Trust, the object of the provision is to limit the class of securities in which the Reserve Fund may be invested, and not to compel the investment of the entire amount of this money. Such a course would be inconvenient in working. We have altered this provision so as to make the intention more clear.

We have nothing to suggest in regard to clause 3.

New clause 3 A.—We suggest the insertion of clause 3A, containing a proposed new section 30A, so as to define more clearly the powers of the Commissioners to establish a Provident Fund for their employees and to distinguish between payments out of such Provident Fund and the payment of bonuses based on length of service which may be made to the employees out of the general revenues of the Port Commissioners. It is understood that application will be made to the Government of India for the notification of this Provident Fund under the Indian Provident Funds Act.

Clause 4.—Sub-clause (*b*), that is to say, new clause (*g*) in sub-section (*1*) of section 31 of the Act, has been recast so as to bring it into conformity with the new clause 3 A of the Bill.

Clause 6.—We consider that the powers of the Commissioners to incur expenditure during any one year in excess of the sum sanctioned in the Budget Estimate should be limited to an expenditure of a lakh and-a-half of rupees when such sums can be met from the ascertained savings on the estimate as a whole. We have inserted a provision to this effect.

We do not consider that the other provisions of the Bill as introduced need any amendment.

3 The Bill was published in English in the *Calcutta Gazette* of the 1st November, 1922.

4 We do not consider that the Bill has been so altered as to require re-publication.

5. We recommend that the Bill, as amended by us, be passed.

WHEREAS it is expedient to provide for the growth of an Indian Merchant Marine by guaranteeing fair and healthy competition and by checking monopolies ;

AND WHEREAS for this purpose it is expedient to provide for the prevention of the grant of deferred rebates to or resort to retaliatory or discriminating practices and for the prevention of rate wars by common carriers engaged in the coasting trade of British India ; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Prevention of Deferred Rebates Act, 192 .

(*2*) It extends to the whole of British India.

(*a*) "a common carrier" means a common carrier engaged in the transportation by water of passengers or property between any two ports in British India or between any port in British India and any port or place in the Continent of India ;

(*b*) "deferred rebates" means a return of any portion of the freight money by a carrier to any shipper as a consideration for the giving of all or any portion of his shipments to the same or any other carrier or for any other purpose, the payment of which is deferred beyond the completion of the service for which it is paid, and is paid only if, either during the period for which computed or the period of deferment or both, the shipper has complied with the terms of the rebate agreement or arrangement;

(*c*) "a subject" means a person and includes a corporation, partnership or association existing under or authorised by the laws of British India or of the dominions of princes and chiefs in alliance with His Majesty;

(*a*) pay or allow or enter into any combination, agreement or understanding, express or implied, to pay or allow a deferred rebate to any shipper,

(*b*) retaliate against any shipper by refusing or threatening to refuse space accommodations when such are available, or resort to other discriminating or unfair methods, because such shipper has patronised any other carrier or has filed a complaint charging unfair treatment or for any other reason, and

(*c*) make any unfair or unjust discriminatory contract with any shipper based on the volume of freight carried or unfairly treat or unjustly discriminate against any shipper in the matter of—

(*1*) cargo space accommodation or other facilities, due regard being had for the proper loading of the vessel and the available tonnage,

(*2*) the loading and landing of freight in proper condition, or

(*3*) the adjustment and settlement of claims.

Governor General in Council to decide whether deferred rebates or discriminating agreements have been resorted to

4. The Governor General in Council, without prejudice to the right of parties to move the Courts, upon his own initiative may, or upon complaint, shall, after due notice to all parties in interest and hearing, determine whether any person, joint stock company, corporation or association engaged in the coasting trade of India—

(*1*) has violated any provision of section 3, or

(*2*) is a party to any combination, agreement or understanding, express or implied, that involves in respect to the coasting trade of India a resort to deferred rebates and retaliatory or discriminating practices mentioned in section 3.

Power to Governor General in Council to prohibit entry into ports

5. If the Governor General in Council determines that any such person, joint stock company, corporation or association violated any such provision or is a party to any such combination, agreement or understanding, he may thereafter refuse such person, joint stock company, corporation or association the right of entry for any common carrier directly or indirectly under his or its control, into any port of British India until the Governor General in Council certifies that the violation has ceased or such combination, agreement or understanding has been terminated.

Common carrier to file copy of agreement with another common carrier.

6. Every common carrier shall file immediately with the Governor General in Council a true copy or, if oral, a true and complete memorandum, of every agreement with another such carrier, or modification or cancellation thereof, to which he may be a party, or conform in whole or in part, fixing or regulating transportation rates or fares; giving or receiving special rates, accommodations, or other special privileges or advantages; controlling, regulating, preventing or destroying competition; pooling or apportioning earnings, losses or traffic; allotting ports or restricting or otherwise regulating the number and character of sailings between ports; limiting or regulating in any way the volume or character of freight or passenger traffic to be carried; or in any manner providing for an exclusive, preferential or co-operative arrangement.

7. Every carrier shall also file with the Governor General in Council a scale of maximum and minimum rates.

Rates filed not to be departed from.

8. No carrier shall depart from the scale filed in accordance with section 7, except with the approval of the Governor General in Council. Whenever the Governor-General in Council finds that any rate or fare is unjust or unreasonable, it may determine, prescribe and order the enforcement of a just and reasonable maximum and minimum scale of rates and fares.

Reduced rates not to be increased without consent of Governor General in Council.

9. Whenever a carrier reduces its rates on the carriage of any species of freight to or from competitive points below a fair and remunerative basis with the intent of driving out or otherwise injuring a competitive carrier by water, it shall not increase such rates unless after a hearing the Governor General in Council finds that such proposed increase rests upon changed conditions other than the elimination of said competition.

Power to Governor General in Council to cancel or modify agreements.

10. The Governor General in Council may by order disapprove, cancel, or modify any agreement or any modification or cancellation thereof, whether or not previously approved by him, that he finds to be unjustly discriminatory or unfair as between carriers, shippers, exporters and importers or to operate to the detriment of the commerce of British India or to be in violation of this Act and shall approve all other agreements, modifications, or cancellations.

Penalties.

11. Whoever violates any provision of this Act or refuses or fails to carry out the orders of the Governor General in Council shall be liable to a fine of not less than ten thousand rupees or simple imprisonment to a term of not less than six months, or both.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove some of the main obstacles that lie in the way of the development of an Indian Merchant Marine. They mainly consist of methods whereby a shipper is practically bound to confine all his shipments to vessels belonging to a particular shipping company or to the members of a shipping conference, and rate wars waged for stifling all competition by ruthless and unfair rate-cutting. Not merely is the freedom of the shipper to ship his goods by any vessel he may choose thus destroyed, but the progress of trade along desirable channels is also checked. A "disloyal" shipper is penalised by (*a*) refusal of space, (*b*) discrimination in the contract of freight, (*c*) the loading and landing of freight, (*d*) the adjustment and settlement of claims and various other discriminatory methods. It is the purpose of this Bill to do away with such practices so that an Indian Merchant Marine may grow unhampered.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 21st March, 1923:—

No. 12 OF 1923.

A Bill for the removal of doubts regarding the right of women to be enrolled and practise as Legal practitioners.

WHEREAS it is expedient to remove certain doubts which have arisen as to the right of women to be enrolled and to practise as legal practitioners; It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Legal Practitioners (Women) Act, 192 .

(*2*) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas.

Definition.

2. In this Act, "legal practitioner" means a legal practitioner as defined in section 3 of the Legal Practitioners Act, 1879. XVIII of 1879

Women not to be disqualified by reason only of sex.

3. Notwithstanding anything contained in any enactment in force in British India or in the letters patent of any High Court or in any rule or order made under or in pursuance of any such enactment or letters patent, no woman shall, by reason only of her sex, be disqualified from being admitted or enrolled as a legal practitioner or from practising as such; and any such rule or order which is repugnant to the provisions of this Act shall, to the extent of such repugnancy, be void.

STATEMENT OF OBJECTS AND REASONS.

The Letters Patents of the several High Courts empower them to admit proper persons as Advocates, Vakils and Attorneys, and to make rules for their qualification and admission. Sections 6 and 17 of the Legal Practitioners Act, 1879, similarly give powers to the High Courts and the Chief Controlling Revenue-authorities to make rules for the qualification and admission of persons as Pleaders and Mukhtars, and as Revenue Agents, respectively. Sections 6 and 31 of the Bombay Pleaders Act, 1920 (Bombay Act XVII of 1920) contain similar provisions as regards Pleadsrs in that Presidency. Conflicting decisions have been given by High Courts as to the right of women, who are otherwise qualified, to be enrolled and to practise as legal practitioners.

The Government of India consulted Local Governments and other authorities on the question of whether women should be as eligible as men to enter upon a career as legal practitioners. The general opinion expressed was that in the present conditions of India, this question should be decided by Indian opinion. An opportunity of obtaining the views of the Assembly upon the question arose in connection with the motion moved by Dr. H. S. Gour for the reference of his Bill further to amend the Legal Practitioners Act, 1879, to a Select Committee. During the course of the debate upon that Resolution, it was indicated that the acceptance of the motion by the Assembly would be regarded as an acceptance of the principle that no woman shall, by reason only of her sex, be disqualified from being admitted or being enrolled as a legal practitioner, or from practising as such in any court of law. The motion was accepted and in accordance with the undertaking given in the course of the debate on the motion the present Bill has been prepared to give effect to this view.

RECRUITMENT FOR THE BENGAL CIVIL SERVICE (EXECUTIVE) AND OTHER SERVICES BY COMPETITIVE EXAMINATION.

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 11TH APRIL 1923.

RESOLUTION—No. 4184A.

READ—

Notification of this Government, No. 5798A., dated the 27th May 1922, publishing the rules for the recruitment of the Bengal Civil Service (Executive) and other services by competitive examination and the orders issued thereunder.

Reports of the Selection Committee and of the President, Examining Board.

IN notification No. 8126A., dated the 24th July 1922, it was announced that the following appointments would be made as a result of the examination —eight to the Bengal Civil Service (Executive), one to the Bengal Excise Service, and forty to the Subordinate Civil Service. Subsequently the Governor in Council found it necessary, in view of financial stringency, to limit the number of appointments in the Subordinate Civil Service to twenty, and an announcement to that effect was published on the 23rd November 1922.

After considering the report of the Retrenchment Committee the Governor in Council decided that as the candidates had already sat for the examination no further reduction should be made in the number of appointments. Of the eight candidates selected for the Bengal Civil Service (Executive), one was found to be medically unfit ; and the Excise Department having abolished a post and no longer requiring a recruit, the candidate selected for the Excise Service was provided with a post in the Bengal Civil Service (Executive) in place of the candidate declared medically unfit. No appointment will therefore be made to the Bengal Excise Service. Another selected candidate for the Bengal Civil Service (Executive) was found to be medically unfit at the time of the examination, but will be given a further opportunity to pass the medical test in June. If he is then found unfit the vacancy will not be filled.

Of the candidates who have been selected for the Subordinate Civil Service, there are five who will be given a further opportunity of passing the medical test in June. Fifteen appointments are now made, and if any of these five are unable to pass the medical test in June, the Governor in Council will then decide whether the vacancies will be filled by the appointment of qualified surplus officers of other departments, or by the selection of further candidates who appeared at the examination, or will not be filled at all.

The candidates named below have been appointed—

To the Bengal Civil Service (Executive).

COMMITTEE TO EXAMINE THE QUESTION OF HOUSING ACCOMMODATION IN CALCUTTA AND THE FACILITY OF COMMUNICATION BETWEEN CALCUTTA AND THE SUBURBS.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

(Local Self-Government.)

CALCUTTA, THE 12TH APRIL 1923.

RESOLUTION—No. 1232-M.

IN 1919, the Government of Bengal appointed a committee to enquire into the serious increase in house rents in Calcutta, to examine the charges of profiteering made against landlords, and to submit proposals for remedial measures if it was considered practical and desirable to control or limit the rise in rents. The committee submitted their report in February 1920. While deprecating rent control, the committee recommended that measures should be initiated for the development of areas, urban and suburban, in order to relieve the congestion in Calcutta, for improving facilities for traffic, for the extension and electrification of the suburban railway systems, and for providing means for rapid transit between Calcutta and its environs. The Calcutta Rent Act was enacted in May 1920, and the committee's proposals for dealing with the ultimate causes of the lack of housing accommodation were examined by Government and subsequently forwarded to a committee known as the Communications Committee appointed in 1919-20 by the Government of India (Railway Board) to consider a scheme for an electric circular railway for Calcutta and generally to make proposals for solving the problem of rapid transit to and from Calcutta.

2. The committee prepared a valuable and suggestive report, which dealt in detail with the whole question of the expansion and development of Calcutta.

They recommended *inter alia* that a central railway station should be provided in the heart of Calcutta, so as to enable suburban passengers to reach the business centre without a change of vehicle, and they were of opinion that this direct connection between the city and the suburban stations could only be obtained by means of an east and west tube railway, running perhaps from Sealdah or its vicinity *viâ* Bowbazar, Dalhousie Square, Clive Street, Harrison Road, Strand Road Junction, and thence under the Hooghly to the East Indian Railway (possibly at Lilloouh).

They advised that an expert should be selected at once to investigate and settle all details in connection with the provision of a tube railway connection between the Eastern Bengal and East Indian Railways.

As regards the electrification of the suburban railway system, the committee were of opinion that apart from the question of tube railways, electrification was a financial proposition which each of the systems concerned must settle independently.

3. In January 1921 the Government of India (Railway Board) appointed Mr. Dalrymple-Hay, Consulting Engineer to Tube Railway in London to examine the question of opening tube railways in Calcutta and to submit a

preliminary report with estimates. Mr. Dalrymple-Hay sent his chief assistant Mr. Ogilvie to obtain all necessary information and to make such enquiries as would enable him to report on the question of the construction of tube railways in Calcutta and the adjoining municipality of Howrah. Mr. Ogilvie returned to London in June 1921, and Mr. Dalrymple-Hay's report was submitted in November 1921. The total cost of construction was estimated at £ 3,526,154, and it was estimated that the time required for the completion of the tunnels and works and the final adjustment of the permanent way would be four and-a-half years. In forwarding a copy of the report to the Local Government the Government of India, Railway Department (Railway Board), accepted the view expressed by the Calcutta Communications Committee that the scheme, if ever carried out, must be financed locally as a provincial undertaking.

4. The Calcutta Rent Act of 1920 will expire on the 5th May 1923, and a Bill has just been passed to extend the present Act until the end of March 1924. In respect of the better class of house, the supply at present shows some signs of overtaking the demand, but in Calcutta the pressure on the housing accommodation is permanently excessive, and a return to the normal is not sufficient. Moreover, rents are still very high as the result of causes, which were operating also in 1920. Several of the remedies which were then proposed have been examined, but the development of Calcutta on the lines suggested above involves enormous expenditure which Government, local authorities such as the Corporation and the Improvement Trust, and private companies, are in no position to undertake. Calcutta still remains in the position she occupied in 1920—a modern city hedged in by railways and canals and surrounded by insanitary and undeveloped suburbs, which are associated with their centre merely by contiguity or concentricity and not linked therewith by adequate radial roads. Rent control in the circumstances which exist can be justified as a temporary expedient but, it has the demerit of producing an artificial adjustment and thus a false security, which must divert attention from the bolder remedies, which the position demands. The reports of the two committees, to which reference has been made, clearly indicate desirable lines of advance, but at the present juncture it is hardly possible to undertake schemes of such magnitude. There are nevertheless certain minor remedies which would undoubtedly mitigate, though they can not finally solve, the difficulties of the present position.

The substitution of motor transport for the bullock and buffalo cart, the introduction of motor omnibus services by private companies, with possibly some system of guaranteed dividends, the relegation of slow cart traffic to certain routes, the question of tramway extensions, the more rapid development of the suburbs by the local authorities and by building societies organized on a co-operative basis, improved standard designs for houses of the smaller kind so as to accelerate construction in prepared areas by "mass" methods, the formation of garden suburbs on the outskirts of Calcutta in the vicinity of suburban railway stations—these are matters which need not wait upon the execution of those other more costly schemes which are also essential for the development of Calcutta.

5. The Government of Bengal (Ministry of Local Self-Government) have therefore decided that a committee should be appointed—

(1) to examine the conditions which operate to produce a permanent lack of equilibrium between supply and demand in respect of housing accommodation in Calcutta ; and

(2) generally to suggest what measures, whether legislative or of other kinds, appear likely to offer some practicable solution, in spite of financial stringency, of the housing problem and to enable an improvement to be made in the communications between Calcutta and the suburbs.

The committee will consist of the following members :—

1. Mr. C. F. Beadel, C.I.E., *President.*
2. The Chairman of the Calcutta Improvement Trust.
3. The Chairman of the Calcutta Corporation.
4. The Chairman of the Port Commissioners.
5. Babu Ram Taran Banerjee.
6. The Agent. E. B. Railway.
7. Raja Reshee Case Law, C.I.E., M.L.C.
8. Mr. W. J. Traise.
9. Mr. F. E. Winmill.
10. Mr. J. Campbell Forrester.
11. Babu M. L. Ganguly. Assessor to the Corporation.
12. Mr C. W. Gurner, I.C.S., District Magistrate of Howrah.

By order of the Government of Bengal
(Ministry of Local Self-Government).

DEPARTMENT OF AGRICULTURE, BENGAL.

Third Forecast of the Wheat Crop of Bengal, 1922-23.

[NOTE.—On an average of the five years ending 1920-21, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1920-21, averaged (*a*) 43·8 and (*b*) 15·0 per cent., respectively.]

Character of the season.—Since the issue of the second forecast, the crop is reported to have improved in the districts of Burdwan, Bogra, Dacca and Faridpur, but to have deteriorated somewhat in Darjeeling. The recent rainfall though beneficial to some extent came too late to be of material value. On the whole the season has not been favourable for the crop.

Area sown.—According to District Officer's estimates, the total area sown amounts to 124,400 acres this year as against 124,100 acres reported both in the special and final forecasts of last year.

Outturn.—From the district estimates the provincial outturn works out at 75 per cent. of the normal this year against 67 and 68 per cent. reported, respectively, in the special and final forecasts of last year.

Taking the normal yield to be 8¼ maunds per acre, the gross yield of the crop for the province is estimated at 28,600 tons this year as against 26,000 and 26,300 tons reported, respectively, in the special and final forecasts of last year.

Director of Agriculture, Bengal (offg.).

Third Forecast of the Wheat Crop of Bengal, 1922-23.

District.	Estimated normal area under the wheat crop.	Estimated area under wheat.		Taking 100 to represent the normal outturn what would be the average outturn per acre cropped.		Date on which the harvesting of the crop was begun this year and whether that date was early, normal or late.	Remarks by District Officers.

	Acres.	Acres.	Acres.				
Nadia ...	23,100	13,100	11,700	42	83	Beginning of March. Normal.	The decrease in area is due to want of timely rain. The weather was not favourable for the growth of the crop owing to insufficient rainfall which has reduced the outturn.
Murshidabad ...	35,500	21,000	21,000	77	67	March to April. Normal...	The weather conditions continued dry after sowing and the absence of moisture in the soil affected the growth and caused damage to the extent of about 33 per cent.
Jessore ...	3,900	900	900	50	50	March	The weather has not been favourable. The fall in outturn is due to want of timely rain.
Burdwan ...	1,600	2,300	2,300	67	117	End of February to middle of March.	Since the submission of the second forecast, the weather was unusually cool until the third week of March owing to there being more than usual number of rainy days. The outturn is above the normal owing to good rain.
Birbhum ...	4,300	3,100	3,100	50	83	Middle of March	The weather has been fairly favourable. Want of rain has affected the outturn.
Bankura ...	4,900	2,500	3,400	75	100	Middle of February ...	The weather has been favourable. A normal outturn is expected.
Midnapore ...	900	900	900	75	67	March. Normal	The weather has not been favourable. Want of rain during the period of growth affected the crop.
Hooghly ...	400	1,700	900	67	67	End of March. Normal ...	The weather has not been favourable for want of timely rain.
Rajshahi ...	18,600	9,300	10,000	83	67	Middle of March. Normal	The increase in area is due to the fact that the crop has been largely grown in the flood affected area. Want of rain retarded the growth of the crop and has affected the outturn.
Dinajpur ...	1,300	1,300	1,600	67	50	.....	The increase in area is due to increase in prices. The weather has not been favourable.
Jalpaiguri ...	800	500	500	92	92	End of March	The weather has been fairly favourable in the Alipore subdivision, but unfavourable in the Sadar subdivision. Want of occasional showers has caused a decrease in outturn.
Darjeeling ...	2,900	2,500	2,500	83	83	.....	The weather has been fairly favourable.
Rangpur ...	3,400	3,400	3,400	100	100	Beginning of March ...	The weather has been good and a normal outturn is expected.
Bogra ...	100	300	300	70	80	Last week of March. Late	The weather has not been favourable owing to want of rain during the period of growth.
Pabna ...	8,800	6,200	6,200	50	67	Middle of March. Normal	The decrease in area as compared with the second forecast is due to revision. The weather was favourable at the outset, but continued drought since the sowing time retarded the growth and damaged about two-thirds of the crop.
Malda ...	48,000	48,000	48,000	75	75	Ditto ...	The weather was not favourable. Continued drought somewhat retarded the growth of the crop causing some damage. The rainfall in February benefited only a part of the crop.

(*a*) "Regular Class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry or any Examination equivalent to it.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe. Students who come out of the Dacca and the Rangoon Universities and the candidates from the Central Provinces should apply to the Director of Public Instruction of the respective Provinces.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

	Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	2	0
Total ...	84	8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, one by the Government of Central Provinces and six candidates by the Inspector-General of Civil Hospitals of Assam, six candidates of the Dacca University by the Director of Public Instruction, Bengal, and two of the Rangoon University by the Director of Public Instruction, Burma. These candidates must possess the qualifications mentioned in rule 2 (*a*). In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (*a*) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(*b*) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual athletic club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the athletic club fee.

15. In calculating the sum to be paid under rule 14 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragragh 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that terms is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.
